## Closed for Sensei Demura Seminars in Michigan

Task Karate will be closed on Friday and Saturday, November 8<sup>th</sup> and 9<sup>th</sup> so that Ms. Yehle and Mr. T can train with Sensei Demura!

## New Task Black Belts!

Congratulations to Mr. Silha, Mr. Johnston, and Miss Clayton, our latest Task Karate Black Belts!

## Parking Lot Issues

The CRBC will be undergoing an electric upgrade on the north end of the building. The project will not directly affect your electricity levels or availability but the project will impose a few short-term obstacles in relation to our front parking lot. **Monday, November 11th**, when Xcel Energy will be digging the trench. During this phase **no one will be able to park** in the front parking lot. The space that is not occupied by the blacktop/dirt removal will be needed for vehicles to drive from one end of the building to the other. Tenants and clients will need to either park along the street or park, in an orderly fashion, in the far north parking lot... past the dumpsters. Access to the building during this phase will be limited as well. Depending on where the crew is at during your hours of operation, you and your clients may need to enter through an alternate location. Unfortunately, I am not able to determine which entrance that will be until the digging begins. The digging and pipe laying may take up to 2 days.

The last phase does not have a set start date. It will begin shortly after the pipe laying has finished. Mathys will return to back-fill the trench, compact gravel and patch the blacktop. This will likely span the course of a few days due to the blacktop needing to harden in cooler weather. Parking will need to remain on the street or in north parking lot. Again, we are going to have to be flexible in our entrance/exist to the building... especially during this phase. Most likely the only entrance, on the front of the building, that will be accessible is the main entrance. **I will hopefully be able to provide a more definitive timeline on this phase closer to November 11th.**

I know this is going to be an inconvenient time for many of you and for that I apologize. I will do my best to ease the impacts of this project, but I can only control so much, so I ask that you come from a place of understanding.
